OUR COMPANY

AMX was formed in 1996 and has quickly become a leading participant in the environmental and specialty contracting industry, as well as providing expert construction services to the wireless telecommunications market. In addition, AMX offers a variety of corporate services catering to the needs of small businesses.

AMX operates from offices in Dallas, Fort Worth, and Houston, Texas, as well as Harrah, Oklahoma, and Gallatin, Tennessee. We also maintain a fleet of sophisticated equipment, specific to industry needs, at each location, and have the capability of retaining the services of specialized vendors and subcontractors throughout the United States.

In addition, AMX Veterans Specialty Services, L.L.C. is a minority owned (MBE) Service-Disabled Veteran-Owned Small Business (SDVOSB) based within the corporate offices of AMX Companies. We can provide any and all the special services offered by AMX Companies to local, state and the United States Federal Government.

Our people are our most important asset at AMX. Our combined years of experience define who we are, what we do, and how we work. Our commitment to excellence fuels our success and continued growth, and leads us to raise our performance standards and provide better solutions to our customers

OUR COMMITMENT

Our fundamental focus on health, safety, environmental compliance, and quality workmanship has produced what we believe to be the safest, most environmentally conscious group of trained professionals in the industry. Our personnel undergo extensive training in accordance with OSHA guidelines, and participate in a strict medical surveillance and drug testing program which adheres to or exceeds all federal, state, local, and site-specific regulations.

AMX is committed not only to protecting the environment and public health, but also protecting our customers from potential liability. The AMX performance record is indicative of the confidence our customers have in specifying AMX as their contractor of choice. AMX is equipped to manage

the legal and financial risks associated with projects of various sizes and complexities, and has the resources, experience and dedication to assure the highest quality service and complete customer satisfaction.

- Industrial Coatings
- Industrial and Commercial Scaffolding

The AMX remediation and industrial services divisions provide a wide range of corrective and industrial assistance, as well as post event remediation. The AMX goal is to provide the most effective and timely solutions to our clients, while ensuring minimal interruptions to ongoing operations.

Our experience, combined with our ability to manage complicated and comprehensive projects, gives our customers the assurance that normal operations will be restored on time, within budget and as planned.

AMX Industrial Services is a leading provider of scaffolding services for the industrial and commercial market areas. We take great pride in the ability to provide the necessary resources to ensure projects are executed in a safe and timely manner. Our professionals each have an average of 25 years experience in the scaffolding industry. Our scaffolding crews are available to travel to our clients' various locations throughout the country to ensure service consistency. We can provide crews in sufficient numbers to undertake some of the more complex and manpower demanding outages and turnarounds.

With our labor and material tracking system and other project management tools, we can provide daily incurred cost estimates for our customers. Daily cost tracking, along with our experience and innovation, will ensure the projects' budgets are met on time and within our customers' window.

At AMX we're committed to our clients' success. We create value by providing solutions that help our clients enhance profits, sales and customer satisfaction.

When you become an AMX client, the power of our world-class technology and experience is behind you.

SPECIALTY CONSTRUCTION SERVICES

- Project Management
- Site Preparation
- Maintenance
- UG Piping
- Steel Construction
- Foundations
- Area Paving
- Drywall and Acoustical Ceilings
- Interior hollow metal door frames, doors and hardware

AMX is a proven provider of specialty construction services. Our on-site construction, maintenance, and turnaround teams are led by managers with extensive experience in safety management, detailed CPM schedules, cost monitoring and analysis, productivity measurement, material expediting/handling, and problem solving.

This expertise allows AMX to make recommendations and develop detailed project plans to best serve the needs of our customers. Our skilled support staff is made up of supervisors and crew members with talents in all disciplines, giving us the field capability of completing each project on schedule

AMX provides and installs commercial drywall construction consisting of light gauge metal framing and drywall panels, both interior and exterior. Also, we provide and install acoustical ceiling grid and acoustical ceiling tile systems in accordance with customer specifications and selections. As an added service, we also provide and install batt insulation.

FIRE PROTECTION AND SECURITY SYSTEMS

Fire Sprinkler Protection & Installation

- Autocad Designed, Hydraulic Calculated Systems
- Wet, Dry, Pre-Action & Deluge Systems
- Installation of Fire Pumps
- Annual Inspections & Maintenance
- Remodel/Retrofit Existing Systems
- Commercial and Residential Systems

AMX Fire Protection and Security Division with its corporate office in Dallas, Texas, is an integral part of the growth and success of AMX Companies.

Our fire sprinkler managers bring over 50 years of industry experience and are well versed on the specialty needs and concerns of our clients.

Our staff of experienced designers and Nicet Certified employees are able to bring to our customers a fully designed Autocad system. We include hydraulically calculated systems, computer generated stocklists, and other support systems, all the way through the permitting process. Our skilled project managers take over from there giving the customer 100% satisfaction throughout the project.

AMX Fire Protection installation department provides the customer with a 100% accurate system to code, while maintaining the customer's needs.

AMX also provides code compliance studies and assessments for new and existing facilities.

Fire Alarm and Security Systems

- Fire Alarm Systems
- Card Access Systems
- Intrusion Detection Systems
- CCTV Systems
- Monitoring Systems
- Autocad Design and Engineering
- Annual Inspections & Maintenance

Let us give you the power and peace of mind that results from proper planning.

Our management team has over 60 years of industry experience in the design, installation, service, and monitoring of fire and security systems.

Our division has aligned itself with the best security equipment manufacturers available: Honeywell, Pelco, Silent Knight, Hochiki Fire Net, Sony, Northern and Brivo Systems. This ensures that our customers are getting the most reliable, state of the art security equipment designed to protect, prevent, and give peace of mind.

Our fire alarm and security systems provide life safety as well as reduce overall operational cost for companies. We accomplish this by totally integrating your workplace systems to help prevent employee theft, property damage, vandalism, workers compensation claims, controlled access, and fire and smoke damage.

WIRELESS TOWER CONSTRUCTION SERVICES

AMX provides expert wireless tower construction services to the telecommunications industry. Our innovative approach to the changing needs of the telecommunication market has allowed AMX to achieve a reputation of distinction among our competitors.

The depth of knowledge and years of experience in both our crews and management team, as well as our commitment to work with our customers to complete projects on time and within budget, gives us greater flexibility, efficiency and control over our projects. For our customers, this translates into the best value for dollars spent.

EMERGENCY RESPONSE SERVICES

- Chemical Response
- Chemical Transfer
- Reactives/Explosives Management
- Oil Spill Response
- High Hazard Industrial and Marine Firefighting
- Natural Disasters
- Weapons of Mass Destruction Response and Remediation
- Clandestine Laboratory Response and Remediation
- Controlled Substance Transportation and Disposal
- Hazardous/Non-hazardous Waste Transportation and Disposal
- Air Monitoring
- Industrial Hygiene

AMX Emergency Response division provides highly experienced and trained personnel for your hazmat needs. One call to our emergency response hotline activates a highly integrated response team, which is capable of responding **24 HOURS A DAY, 7 DAYS A WEEK, 52 WEEKS A YEAR.**

While the overall goal in industry today is the continued reduction in the occurrence and severity of hazardous materials events, readiness is a never ending prerequisite that demands constant vigilance.

AMX personnel are routinely exposed to a wide variety of fire and hazardous material incidents, and receive state-of-the-art training. Our level of competence is unsurpassed in the industry.

OCCUPATIONAL AND ENVIRONMENTAL SAFETY TRAINING

- Hazardous Materials Operations
- Hazardous Waste Management
- HazMat Emergency Response
- Incident Command Systems
- Confined Space Entry/Rescue
- Lock Out/Tag Out Procedures
- Blood Borne Pathogens
- Air Monitoring
- RCRA/DOT
- Personal Protective Equipment
- Hazard Communication (HAZCOMM)
- First Aid and CPR

In accordance with 29 CFR (OSHA) guidelines and curriculum, AMX conducts training on hazardous materials handling, emergency response, confined space entry and rescue and incident command at our education center or at our client's facility.

Our curricula are well-suited for a diverse clientele, from private industry to government agencies, and classes can host both groups and individuals. Our programs provide dependable, cost-effective solutions that will ensure compliance, simplify communications and enhance productivity. Each program can be customized to site specific concerns and designed to meet federally mandated training requirements for persons involved in hazardous waste operations, transportation or emergency response situations.

Our trainers are experienced emergency response professionals who share their hands-on experience and knowledge, making the learning process exciting and memorable.

CORPORATE SERVICES

- Accounting
- Banking and Finance Assistance
- Safety and Risk Management
- Workers' Compensation Management
- Human Resource Administration
- Compliance Administration
- Benefits Management and Administration

At AMX we're committed to our clients' success. We create value by providing solutions that help our clients enhance profits, sales and customer satisfaction.

When you become an AMX client, the power of our world-class technology and experience is behind you.
